

# Euthanasia

Sodom

Pain-revealing, no more feeling  
Walk the line of death  
Elimination, disinhibition  
Unrestrained contempt  
Defaming truth, fatal abuse  
Lay down your life to me  
Abnegation, no sedation  
Palliative machines

Constant irritant lovely sights  
You will see before you die  
When God speaks through a murderer  
A docile heart should bleed  
I can't decide what's wrong or right  
My lust corroding from inside  
Benevolence will not prevail  
I'm stimulated by your screams

Euthanasia

Mass dissection, natural selection  
Disgraced without compassion  
Painless Hypnos, demonic Thanatos  
Medical interventions  
Pitiless, no godliness  
I'll never set you free  
Endless sleep, the god you seek  
Your only destiny

Constant irritant lovely sights  
You will see before you die  
When God speaks through a murderer  
A docile heart should bleed  
I can't decide what's wrong or right  
My lust corroding from inside  
Benevolence will not prevail  
I'm stimulated by your screams

Euthanasia

No amnesty, no faith in God  
Hippocratic face  
Bad intentions, blood addicted  
Narcotic twilight state  
Tombs of lies, convulsions stops  
Demigod in white  
Needled skins, frozen blood  
Underhanded smiles

Constant irritant lovely sights  
You will see before you die  
When God speaks through a murderer  
A docile heart should bleed  
I can't decide what's wrong or right  
My lust corroding from inside  
Benevolence will not prevail  
I'm stimulated by your screams
