

# Hatred of the Gods

Sodom

The soul that pines for eternity  
Coming from the dark  
Dweller of the twilight void  
Ripping off my heart  
When hell is freezing over  
Never ending pain  
Driven by your violence  
The evil in my brain

Hatred of Gods  
Hatred of the Gods

Warriors of haunted souls  
Desire for the kill  
Rituals of flesh and blood  
Spreading Satans seed  
Lords of hellish terror  
Leading me the way  
The day of wrath is near  
Thousand lives yo break

Hatred of the Gods  
Hatred of the Gods  
Hatred of the Gods  
Hatred of the Gods

Master of the sacrifice  
Total Holocaust  
Revealed your endless fear  
On the altar of the Gods  
The silent call of solitude  
Now the time stands still  
Into abyss of hopeless time  
Do whatever you will
