

# Predatory Instinct

Sodom

No mercy  
No sympathy for you  
Unbounded  
My urge is so impure  
Ingenious  
I will find your trace  
Can't stand it  
The beauty of your pain

In my world you're left alone  
My claws so deep inside your heart  
Prey drive and disorder  
Coldblooded slaughter

Maltreatment  
Your innocence declined  
Reflections  
That never reached my eyes  
No comfort  
To mitigate your fear  
Confessions  
That never touched my eyes

Don't try to run, don't try to hide  
My wheezing breath so close behind  
Forever caught in my domain  
Be sure that you will not escape

I am the alpha leader  
Pitiless and greedy  
Your death conserves my species  
Predatory instinct  
Predatory instinct  
Predatory instinct  
Predatory instinct

Unending  
My hunger is my guard  
Defaced  
My inner peace of mind  
Trailing  
Rooting out your nest  
No one  
Will ever find your rest

Under the stimulus of hunger  
And no control to terminate  
I lose all my inhibitions  
I'll leave your shell exsanguinate

I am the alpha leader  
Pitiless and greedy  
Your death conserves my species  
Predatory instinct

I am the alpha leader  
Pitiless and greedy

Your death conserves my species  
Predatory instinct  
Predatory instinct  
Predatory instinct  
Predatory instinct
