

## Remember the Fallen

Sodom

Honour the fallen heroes  
See their last resting place  
Perished in the battle of nations  
Where they found eternal peace  
Do you know the use of their decorations?  
Awarded for patriotism  
They left their life in fire  
But don't know even why

Remember the fallen  
Remember the fallen

To the command of despotic dictators  
They marched to fight in a senseless war  
Most of them were just puppets and children  
The battle was lost before it began

Brotherly in heart and hand  
Know that they never come back  
With combined effort  
And the believe in god  
Their duty only as cannon fodder  
Kamikaze as living bombs  
Driven into the open knife  
Deceitful and malicious

Remember the fallen  
Remember the fallen

Their tormented souls will never rest  
To pay us back for their innocent death  
No quarter shed our proud blood  
Retaliation on the warpath
