

Taphephobia

Sodom

Death rains down from rumbling heaven
Grenades cutting through the ground
With foreign souls unpurged and steadfast breath
The way back blocked by angry fire
Fueled by grief and faithless lies
The lord is mocked and neither are the dead

Stimulated willingness to justify the kill
Confidence gets lost when fireballs to burn within
Rebirth of abnormalities the worst thing God created
All alone into my dreams when blood forever rains

Taphephobia, taphephobia
The faces of defeat concealed
Into the darkness hidden deep
Taphephobia, Taphephobia
Godforsaken agony
Bomb craters final resting place

We trembled by machine gun rhythm
No sudden death will fight the light
Those who sent by God all dressed in black
I hope I'm spared the worst scenario
Gracious death will take me soon
Release me from my greedy fear of death

Stimulated willingness to justify the kill
Confidence gets lost when fireballs to burn within
Rebirth of abnormalities the worst thing God created
All alone into my dreams when blood forever rains

Taphephobia, taphephobia
The faces of defeat concealed
Into the darkness hidden deep
Taphephobia, taphephobia
Godforsaken agony
Bomb craters final resting place

Far below but close to heaven
Begging for eternal sleep
Buried in the back of my mind
Under the debris of the human abyss

Stimulated willingness to justify the kill
Confidence gets lost when fireballs to burn within
Rebirth of abnormalities the worst thing God created
All alone into my dreams when blood forever rains

Taphephobia, taphephobia
Godforsaken agony
Bomb craters final resting place
