i've got you

Sody

I never knew how much you meant to me
Until the day that you were gone
The pain in my chest it was too much to bare
But our story was too long to forget

I knew the darkness was thick and blinding
You couldn't see the light standing in front of you
I never hated you for the way you hurt me
I just wanted you to know

I've got you
I've got you
I'll be here by your side
When you're needing to cry
I've got you
I've got you

Pushed away the people you cared about
You figured you wouldn't lose them anyway
If you wanna forgive then you've got to forget
Because sometimes we all make mistakes

I knew the darkness was thick and blinding
You couldn't see the light standing in front of you
I never hated you for the way you hurt me
I just wanted you to know

I've got you
I've got you
I'll be here by your side
When you're needing to cry
I've got you

I never knew how much you meant to me
Until the day that you were gone
I'll be right here when you need me the most
I'm waiting for you to come home
'Cause I've got you
