

## The Nest

Sody

I grew up not wanting to be different  
My brothers told me that I should be  
I should try and keep my British accent  
So I could be different and that is a good thing  
I grew up with people all around me  
But music never ran in our veins  
My brothers never told me I would make it  
But they were still proud of me all the same

I wanted to be like all the rest  
Yeah, I wanted to blend into the nest  
But it left me lonely  
'Cause I'm made of something else  
But my brothers told me  
Just be true to yourself

Tried to find some common ground, there's nothing  
I never went to university  
Maybe I should study history or something  
But I always had a songbird on my sleeve  
Everybody's overanalyzing  
Talking about my future with some doubt  
My brothers told me I should keep my accent  
Sister, you were born to stand out

But I wanted to be like all the rest  
Yeah, I wanted to blend into the nest  
But it left me lonely  
'Cause I'm made of something else  
But my brothers told me  
Just be true to yourself

And I wanted to be like all the rest  
Yeah, I wanted to blend into the nest  
But it left me lonely  
'Cause I'm made of something else  
But my brothers told me  
Just be true to yourself

My brothers never told me I would make it  
But they were still proud of me all the same
