

## time again

Sody

I was waiting  
In the rain when you called  
Said you won't make it  
Chains are laid it  
It's not that I don't believe you  
It's just that we've been here before  
Wish that I could believe you

Is it that time again?  
You come into my life  
Say that we should try  
To start again  
You'll apologize  
Promise you'll be kind  
And I won't forget  
But I'll always forgive you  
Is it that time again?  
You come into my life  
Just to say goodbye  
Ooh

Same old story  
And I fell for it  
'Cause when you ignore me  
I guess I'm not surprised  
I don't think I deserve this  
It's just that I hope you'll change  
But you'll never change

Is it that time again?  
You come into my life  
Say that we should try  
To start again  
You'll apologize  
Promise you'll be kind  
And I won't forget  
But I'll always forgive you  
Is it that time again?  
You come into my life  
Just to say goodbye  
Ooh, ooh

I wish you'd change  
But you're the same  
I wish you'd change  
But you're the same  
I wish you'd change  
But you're the same  
I wish I'd change  
But I'm the same

Is it that time again?  
You come into my life  
Say that we should try  
To start again  
You'll apologize  
Promise you'll be kind

And I won't forget  
But I'll always forgive you  
Is it that time again?  
You come into my life  
Just to say goodbye
