

Violet World

Sody

Ooh, ooh, ooh

Passed out on the couch
Whiskey in your hand
Broken bottles on the floor
So you're getting old
It wasn't me who stole your clocks
And drained your empty soul
Yeah, we all fall down, we all fall down, we all fall down

Lost in the lows and lost in the highs
Head in the ground and feet in the sky
Found in the dark and lost in the light
A violet world and you're black and white

You used to be yourself
But now you're someone else's
Angel drowning before my eyes
Searching for a thrill
Smiles on happy pills
To make sure everything's alright
Until we all break down, we all break down, we all break down

Lost in the lows and lost in the highs
Head in the ground and feet in the sky
Found in the dark and lost in the light
A violet world and you're black and white

It's a violet world, ooh, world
A violet world, ooh
It's a violet world

Ooh, ooh, ooh
'Til we all break down, we all break down, we all break down

Lost in the lows and lost in the highs
Head in the ground and feet in the sky
Nobody's gonna help you this time
Found in the dark and lost in the light
A violet world and you're black and white

It's a violet world, ooh, world
A violet world, ooh
It's a violet world
