

# Whole

Sody

Messed up, knocked down  
Knew how to get to me  
Stressed and worn out  
Nothing ever changes  
All these years I've felt so incomplete  
Bet you thought you took a piece of me

But I'm still whole, I'm still whole  
I'm still whole, I'm still whole

Left out, lonely  
Locked out of the party  
Shouting and swearing  
Drenched in emptiness  
For all these years I've felt so incomplete  
Really thought you took a piece of me

But I'm still whole, I'm still whole  
I'm still whole, I'm still whole

I was on the edge of the darkness  
Little did I know, that's where the light is  
Hidden in the cold and the heartless  
Thought that I was always missing something  
Swore that I could've lost everything  
But I lost nothing, nothing  
But I lost nothing

All these years I've felt so incomplete  
Really thought you took a piece of me

But I'm still whole, I'm still whole  
I'm still whole, I'm still whole  
I'm still whole, I'm still whole  
I'm still whole, I'm still whole
