

Glitches, Crashes & Ashes

Sofa Surfers

My head feels like it's going explode today
I'm staring up in space
Who am I today?

My head feels like it's going explode today
Voice on my shoulder that just don't go away
My head feels like it's going explode today
I'm falling off in space
Who am I today, today, today

A list of things on a wall
I'll never do
A list of things on a wall
I'll never do
Just tired of this, just don't get into
I hear it going in a gasp
Who am I today, today, today

I need
I like a I need an extra need
To get far in a ray from a star beneath
I hear it going in a gasp
Who am I today, today, today

Hearing the wall on the other side
Living the wall on the inner side
