

Rising

Sofa Surfers

So we're done
So we're done
So we're done with all the fighting and the fussing

So we're done
So we're done

So we're done
So we're done with all the fighting and the fussing
So we're done
We took our problems on a city-wide tour now
I'm so done
And we add our debt to your laundry
I'm so done
I'm thinking of leaving
I'm so done
I'm thinking of leaving
I'm so done

I used to make them feel alive
But now I only realise that
There's a fall after the rise
In the rising of the light
In the rising of the light

I can tell
I can tell [?]
We try to make the best of it
But money's dying with the rest of it
Is there a chance of us saving it

I can tell
I used to make them feel alive
But now I only realise that
There's a fall after the rise
In the rising of the light
In the rising of the light

Do you know
Do you really know what you got
Nothing's for free
No life
No love
Nobody
Is gonna coach you

Life sure live high
Life sure live high
I got hopin'
I got hopin'

I used to make them feel alive
But now I only realise that
There's a fall after the rise
In the rising of the light
In the rising of the light

I used to make them feel alive
But now I only realise that
There's a fall after the rise
In the rising of the light
In the rising of the light
