

I'll Say

SoFaygo

Ayy, Woods, light that shit up

I'll say, lately things been going my way
I took it on myself to trust you
Now look what you did to me, yeah, hey
I'll say, I been really getting money
Roll me a blunt, put my pain away
You know that I drift away, yeah, hey

Fuck there's so much gas in my body, I can't think (Shit)
That ho switched quick, she loved you the other day (Yuh)
Had to get this fucking bag, I ain't have no other way (Yuh)
We be moving way too fast, they can't keep up with my gang (Yeah)

(Whoa, whoa, whoa, whoa)
Shit

Racing
Time, pacing
I don't love you, baby
You think that I'm strange, but in my head I'm just wavy, fuck, wavy, fuck
Crazy. I'm doing what I want
Maybe. I don't know how long it's gonna take me
But there's things I wanna know
Save me from the card that stays me

But I know a way I wanna be

Tell me, tell me, tell me

Ever had back against the wall
Like you ain't got no one to call
So I hit it with the ooh, it ought be done
I'm just tryna paint the picture like the artist
Let me do my job
Let me do my job

I see the light

I'll say, lately things been going my way
I took it on myself to trust you
Now look what you did to me, yeah, hey
I'll say, I been really getting money
Roll me a blunt, put my pain away
You know that I drift away, yeah, hey

Fuck there's so much gas in my body, I can't think
That ho switched quick, she loved you the other day
Had to get this fucking bag, I ain't have no other way
We be moving way too fast, they can't keep up with my gang

Boom
Boom, yeah, boom
Boom, yeah, boom

I see the light
