

# Guardian Angel (Stand By You)

Sofi Tukker

I'll stand by you  
I'll tell you what to do  
When you get so all mixed up  
Just you call  
I'll get you all fixed up  
There's a guardian angel for you

I'll stand by you  
I'll tell you what to do  
When you get so all mixed up  
Just you call  
I'll get you all fixed up  
There's a guardian angel for you

My hand will find you  
When it's dark and you get blue  
When you get so all confused  
And if you fall  
And you get hurt and bruised  
There's a guardian angel for you

You needn't cry  
You needn't even hide  
You ought to know that I'll be there  
To guide you

I'll stand by you  
I'll stand by you  
I'll stand by you  
I'll stand
