

Luv U

Sofia Camara

You try to reach me I can't hide
And it still hurts from all the pain
That caused when you walked away

Closed all the doors memories fade
You said you care you'd hold my hand
And now there's no one I can have

Cause I keep hoping that one day you'll come
Back and stay hold on don't fade away (fade away)
Cause I keep hoping that one day you'll come back
And change the way you used to say (used to say)

Luv u (luv u)
That I luv u (luv u)

You wanna keep me fight again
Feeling loved is feeling alive but when
That dies there's no more time

That laughs the smiles they keep us close
You said those eyes would never lie you
Said you'd stay then walk away

Cause I keep hoping that one day you'll come
Back and stay hold on don't fade away (fade away)
Cause I keep hoping that one day you'll come back
And change the way you used to say (used to say)

(Luv u)
Luv uuuu woahhhh oo
That I luv u (luv u) ooooooo
That I luv u woahhhh
That I luv u woahhh ohoh

That I love you baby I'm still here
And even when you fall
Even when you cry again
I'll still be right here
Ooo yeahh

(Yeah)
Mmhm
Woahhhhh
Yeahhh
Luv u (woahhhh)
That I luv u
That I luv u (baby I'm still here)
My that I luv u
That I luv u
