

# Never Be Yours

Sofia Camara

I got so much left to say  
But all these words will break me down  
Know you hate me now  
That's okay  
Cause you're saying all things that I need-a hear and its so clear  
That I'm better off alone  
(Alone)

So this'll be the last time  
That you're gunna hear from me why  
Why, you making it so easy  
Do you even care about me

I could never be yours anymore- oh  
Did it once but never twice before-oh  
Cause I thought that I knew you  
No, I never knew you  
Quite like this  
I could never be yours anymore -oh  
Feelings that I thought I had before -oh  
Cause back when I knew you  
No I never knew you  
Quite like this  
I couldn't never be yours anymore  
I couldn't never be yours anymore

You damage what u can't repair  
Said you would never take me there  
Now I'm standing here on my own  
I'll be fine

It's the last time  
That you're gunna hear from me why  
Why you making it so easy  
Did you even care about me

I could never be yours anymore- oh  
Did it once but never twice before-oh  
Cause I thought I knew you  
No, I never knew you  
Quite like this  
I could never be yours anymore -oh  
Feelings that I thought I had before -oh  
Cause back when I knew you  
No I never knew you  
Quite like this  
I couldn't never be yours anymore  
I couldn't never be yours anymore  
I could never be yours anymore  
Did it once but never twice before  
Cause I thought that I knew you  
No I never knew you  
Quite like this  
(Quite like this)  
I could never be yours anymore -oh  
Feelings that I thought I had before -oh  
Cause back when I knew you

No I never know you quite like this  
I could never be yours anymore  
I could never be yours anymore
