

Without You

Sofia Camara

I hope
I hope they treat you the best and I
Know that I left you for the better
And all of this girls that you never saw
They left when I left you because it didn't feel right

So I gave someone else a part of me, they treat me well
And you never have to worry about a
Thing because I know they give their all
I just wanted to be a hero someone that they

Need, bringing out the best that they can be
Trust in what I see
And yeah, I know it hurt when I left and it hurt when I
Walked away but I had to take all of this pain and just move on
And move on without you

I'm doing fine and you never run my mind anymore, no
I left you, you used me, I left you behind
And move on from the past and I wish you the best in all that y
ou do
And I wish that you do

I just wanted to be a hero
Someone that they need, bringing out the best that they can be
Trust in what I see
And yeah, I know it hurt when I left and it hurt when I
Walked away but I had to take all of this pain and just move on
And move on without you) Don't blame me

Don't hate me for what had to be done and
I hate that I had to ohh let you move alone
What this was right and trust in what I say
And you'll learn to love somebody else someday, someday, someda
y
Like I did, I just wanted to be a hero someone
That they need, bringing out the best that they can be
Trust in what I see
And yeah, I know it hurt when I left and it hurt when I
Walked away but I had to take all of this pain and just move on
Move on without you (oh)
Move on without you (yeah), move on without you (yeah)
I just wanted to be a hero, someone that they needed (um)
