

There's a pistol on the paper  
From last time we talked  
I throw her in a field and tell her to speak  
It's a threat with our clothes off  
Boiling my blood til it's bubbling  
Under the skin of my thighs, its' love  
But you would never think that  
If you were looking at it from above

She's clothed in black egg whites  
Hair to the floor that's weighed with water  
She smiles at me like I'm camera  
She's a shadow that's mimicking me slightly wrong  
For her, I'd attach a Ford Bronco 1970 at my hip and jump into the sea  
And when I meet her at the bottom I'd let her do anything to me

I put a pen to paper like putting a gun to my head  
No human body permitted to treat me the way I beg  
I beg her to  
She arched and broke her back in my open skin  
The only one who can kill me with permission

And honey that's all I was made for, all I was meant to do was  
I'm a microphone for all her clogged words to comb through  
And honey that's all I was made for, all I was meant to do was  
I'm just something, something made for you

I put a pen to paper, I hold her like she's a gun  
And she comes into me like water into your shoes  
And you can hide but you can't run

Playing quiet on the cassette  
Using silence like a threat

I put a pen to paper like putting a gun to my head  
No human body permitted to treat me the way I beg  
I beg her to  
She arched and broke her back in my open skin  
The only one who can kill me with permission

And she's the only one that keeps me terrified to die  
That someday somehow somewhere the ink in her eyes will dry  
And everything I never said is only six feet away  
All the unwritten songs humming static in her ribcage

And when her work is complete, her masterpiece on a stage  
You will clap for her, for the mess of me she's made  
And when her work is complete, her masterpiece on a stage  
You will clap for her, for the mess of me she's made

And honey that's all I was made for, all I was meant to do was  
I'm just something, something made for you  
And honey that's all I was made for, all I was meant to do was  
I'm just something, something made for you
