

# Rainbow Rocket Ride

SOFIA ISELLA

Good morning to the same  
A brand new yesterday  
Wouldn't you like to know  
Where the treasured time goes?

The game forgets to update  
Keep up the pace  
Mince in my brain  
But that's subject to change

Remember running 'round the red romantic rainbow rocket ride  
The pretty purple people playing in the precious present time  
I took your hand, I blew your mind  
If I take yours then you take mine  
I took your hand, I blew your mind  
If I take yours then you take mine

Wrapped in gold with a cut in my soul  
I didn't know better  
I put it together  
I found my joy with a runaway boy  
And the cosmos is so big it won't notice we went missing

Ran right under  
The suns nose  
The stars will cover our shadows  
The rain in space  
Dripped down your face  
It'll all look okay  
When it's miles away

Remember running round the red romantic rainbow rocket ride  
The pretty purple people playing in the precious present time  
I took your hand, I blew your mind  
If I take yours then you take mine  
I took your hand, I blew your mind

Wrapped in gold with a cut in my soul  
I didn't know better  
I put it together  
I found my joy with a runaway boy  
And the cosmos is so big it won't notice we went missing
