

Autopilot

Sofia Karlberg

I keep my distance but I am a coward and saw you
And when I try to avoid I get caught up intercept by you
No negotiation, it's a losers game
And still you claim
That everything I say will come back at me one day
And the last playing left will lose

Got me locked into auto, auto
Caught up in you, auto, auto
When I'm with you, auto, auto
Autopilot my way through
Got me locked into, auto, auto
Caught up in you, auto, auto
When I'm with you, auto, auto
Autopilot, my way through

I keep on holding onto you, I don't know why
'Cause you're a mess and now so am I
Collaterated flames dying slowly in the rain
Running out of oxygen
How do I track the trail back from where we once came?
It's such a shame
Still begging you to stay, we'll be over this one day
Either way we're both insane

Got me locked into auto, auto
Caught up in you, auto, auto
When I'm with you, auto, auto
Autopilot my way through
Got me locked into, auto, auto
Caught up in you, auto, auto
When I'm with you, auto, auto
Autopilot, my way through

Auto, auto (Oooh)
Auto, auto (Aaah)
Auto, auto (Oooh)
Oooh, oooh, oooh
