

# Bad Habit

Sofia Karlberg

Can you feel it  
Devil's on your shoulder  
All the prayers in heaven can't help you now  
Can you feel it  
(Ohhhhh)

Caught a fever  
Now you're lucid dreaming  
Slowly floating ten feet off of the ground  
You are leaving  
Can you feel it

One bite of you will make me whole again  
Let go of all the fear you're holding  
Turn off the lights let darkness be your friend  
Just let me in

Love's a chemical  
And I want it so bad  
I'll become your bad habit

Tend to overkill  
When I want it so bad  
I'll become your bad habit

Love's a chemical  
And I want it so bad  
I'll become your bad habit

Looking for a thrill  
Always what I can't have  
I'll become your bad habit

Barely breathing  
Is it almost over?  
No more protecting your innocence now  
Here's your freedom  
(Ohhh)

I'm deceiving  
So don't come much closer  
What's a lie if it can never be found  
In a feeling, can you feel it?

One bite of you will make me whole again  
Let go of all the fear you're holding  
Turn off the lights let darkness be your friend  
Just let me in

Love's a chemical  
And I want it so bad  
I'll become your bad habit

Tend to overkill  
When I want it so bad  
I'll become your bad habit

Love's a chemical  
And I want it so bad  
I'll become your bad habit

Looking for a thrill  
Always what I can't have  
I'll become your bad habit

One bite of you will make me whole again  
Let go of all the fear you're holding  
Turn off the lights let darkness be your friend  
Just let me in

One bite of you will make me whole again  
Let go of all the fear you're holding  
Turn off the lights let darkness be your friend  
Just let me in
