

# Bad Omen

Sofia Karlberg

Snakes in the grass  
I'm losing sleep over you  
Heart beating fast  
It reaches for what you do

Because of me you're like a broken mirror  
Like a black cat crossing the road  
Your presence is a curse  
You want me and it hurts  
It's only getting worse  
(To me you're like a bad omen)

And I don't even want you that bad  
You want me like a cloudy gray sky  
And I don't need that kinda shit in my life  
So turn around and run  
Could you maybe run?  
Baby 'til you run, run

Bad omen  
(Falling through the clouds)

Walking the wires  
No longer know what is true  
Raising my tires  
I'm losing speed over you

Because of me you're like a broken mirror  
Like a black cat crossing the road  
Your presence is a curse  
You want me and it hurts  
It's only getting worse  
(To me you're like a bad omen)

And I don't even want you that bad  
You want me like a cloudy gray sky  
And I don't need that kinda shit in my life  
So turn around and run  
Could you maybe run?  
Baby 'til you run, run

Bad omen  
(Falling through the clouds)

And I don't even want you that bad  
You want me like a cloudy gray sky  
And I don't need that kinda shit in my life  
So turn around and run  
Could you maybe run?  
Baby 'til you run, run

And I don't even want you that bad  
You want me like a cloudy gray sky  
And I don't need that kinda shit in my life  
So turn around and run  
Could you maybe run?  
Baby 'til you run, run

Bad omen  
(Falling through the clouds)

To me you're like a bad omen
