

Body

Sofia Karlberg

Black cab, blackout, flashlights, last night

What?

Red wine, red lips, undressed, first kiss

Then

I can't remember what just happened

Was it for real or did I feel you in my dreams

And now my memories are scattered

Are you for real or will I see you in my dreams?

Talk to your body

I just wanna talk to your body

'Cause it's like you left your marks on my body

I just wanna talk to your body

Daylight, wake up, bad side

You're not here

Flashbacks, six shots, strangers

Hands on me

Feels like a vision I've imagined

Was it for real or did I feel you in my dreams

And now my memories are scattered

Are you for real or will I see you in my dreams?

Talk to your body

I just wanna talk to your body

'Cause it's like you left your marks on my body

I just wanna talk to your body

Don't know if I should stay up all night

Waiting for a sign

Or maybe leave it to my pillow

Help make up my mind

'Cause you're all around

Will you stick around?

'Cause I just wanna talk

Talk to your body

I just wanna talk to your body

'Cause it's like you left your marks on my body

I just wanna talk to your body (Ooh, ooh)

Talk to your body

I just wanna talk to your body (Oh-oh-oh)

'Cause it's like you left your marks on my body (Mmm)

I just wanna talk to your body
