

Glowstick

Sofia Karlberg

You break me and I light up
Glowstick and you're my nightclub
You bait me but I'm tied up
No cars but we're a pile-up

And my heart's on fire
And I don't wanna burn
No, I don't wanna hurt
And now my lungs both fill with smoke
I know that it won't be long

I know that you see underneath every thought
Runnin' out of air, guess you swallowed it up
Twist me like a key, then you open the lock
You're settin' me free, you're settin' me free
I know that you see underneath every thought
Runnin' out of air, guess you swallowed it up
Twist me like a key, then you open the lock
You're settin' me free, you're settin' me free

You play me like a line-up
Long con, you make me wise up
You fake me like a writer
No flaws just like Mariah

And my heart's on fire
And I don't wanna burn
No, I don't wanna hurt
And now my lungs both fill with smoke
I know that it won't be long

I know that you see underneath every thought
Runnin' out of air, guess you swallowed it up
Twist me like a key, then you open the lock
You're settin' me free, you're settin' me free
I know that you see underneath every thought
Runnin' out of air, guess you swallowed it up
Twist me like a key, then you open the lock
You're settin' me free, you're settin' me free
