

Never

Sofia Reyes

Te lo digo de corazón
Cuando hablo it cuts to the bone
Cause between you and me
We lost chemistry
And now every feeling is gone
The time that we spend was our own
But I don't wanna string you alone
Cause
If this is the end
There nothing to mend
Ya nuestro camino se terminó

I was on the road
I couldn't call you every night
Distance grew between us
And it caused too many fights
I don't really know if it's a feeling or a fact
But it seems like we lost what we had

I never meant to fuck you over
I never meant to make you cry
I was drunk and you were sober
But you don't really know me
I'm ok with lonely

I never meant to fuck you over
What's done is done now it's goodbye
I was drunk and you were sober
But you don't really know me I'm ok with lonely

Te lo digo de corazón
La verdad que fue mucho dolor
No fue para mí, ni para ti
Y por eso te pido perdón

You were on the road
I couldn't call you every night
Distance grew between us
And it cost too many fights
I don't really know if it's a feeling or a fact
But it feels like we lost what we had

I never meant to fuck you over
I never meant to make you cry
I was drunk and you were sober
But you don't really know me
I'm ok with lonely

I never meant to fuck you over
What's done is done now it's goodbye
I was drunk and you were sober
But you don't really know me I'm ok with lonely

I never ever thought that you would walk away
(I never meant to)
I never thought without me you would be ok
Pero ya no más

I never meant to fuck you over
I never meant to make you cry
I was drunk and you were sober
But you don't really know me
I'm ok with lonely

I never meant to fuck you over
(I never never thought that you would walk away)
What's done it done now it's goodbye
I was drunk and you were sober
(I never thought without me you would be ok)
But you don't really know me
(I'm ok with lonely)

Te lo digo de corazón
(I never meant to)
Pero ya no más
I never meant to fuck you over
