

# Gemini Lounge

Soft Cell

We moved to the sounds  
At the Gemini Lounge  
The drink was fine  
And you were all mine

We went too far in my battered old car  
Taking the wrong turn every time  
I was looking around but ignoring the signs

Oh why did you laugh when you got with your friends  
You said I was no good and you had to pretend  
We danced to a song, the lyrics were wrong  
It was sad in the end

We moved to the sounds  
At the Gemini Lounge  
For love could be found  
My head was spinning around  
We moved to the sounds  
At the Gemini Lounge  
I was lost in the light  
'Cause you were gone at the end of the night

Wish life was a smooth ride and you by my side  
But now you're all gone and I'm empty inside  
I've always been dead but you put me alive  
Just where did you go? I'll never know  
Wish life was a done deal and you were as real  
As dreams I dreamed the way back in my teens  
I'm under the lights with the sensory beats  
This feeling alive now so incomplete

We moved to the sound  
Of the Gemini Lounge  
The drink was fine  
And you were all mine  
But if I see you again  
I'll have nothing to say  
So nice till I've known you  
Now please go away

We moved to the sounds  
At the Gemini Lounge  
We moved to the sounds  
At the Gemini Lounge

What can I do?  
What can I say?  
It was nice till I've known you  
Now please go away  
What can I do?  
What can I say?  
It was nice till I've known you  
Now please go away

We moved to the sounds  
At the Gemini Lounge

I thought it was sad  
But you want to forget  
The Gemini Lounge  
At the Gemini Lounge  
At the Gemini Lounge  
For love could be found
