

# Quiet Rebellion

Soft Cell

Went to the shops the other day  
Having a coffee in a secret cafe  
I heard the talk and it went like this  
"Get ready for a quiet rebellion"  
Moved on up past the burger, through  
The city centre and they whispered too  
"We gotta do what we gotta do  
We gotta have a quiet rebellion"

Come and join my quiet rebellion  
Come and join my quiet rebellion  
It's the silent revolution and we don't need to say a thing (ah, ah)  
Come and join my quiet rebellion  
Come and join my quiet rebellion  
It's the silent revolution and we don't need to say a thing (ah, ah)

Look out, here we come  
We're the ones that you least expect  
We're moving fast, gonna give you some  
Of our silent revolution  
You can taste it in the air  
You can see it in each other's eyes  
We're gonna take you by surprise  
In a silent revolution  
We've learned not to make a noise  
Since they took away our voices  
But it's revving up, little by little  
Step by step, we're working 'round the rules  
We're turning off our smartphones  
We're checking on the other rhythms  
Some things are never forgiven  
So watch out, 'cause now here we come

Come and join my quiet rebellion  
Come and join my quiet rebellion  
It's the silent revolution and we don't need to say a thing (ah, ah)  
Come and join my quiet rebellion  
Come and join my quiet rebellion  
It's the silent revolution and we don't need to say a thing (ah, ah)

My spark was raised and I felt inside (come and join my quiet rebellion)  
That I was living when I thought I'd died (come and join my quiet rebellion)  
Got all dressed up and made the frame (it's the silent revolution)  
And I felt alive  
We're gonna have a quiet rebellion
