Artificial Intelligence

SOFT PLAY

Artificial intelligence
Humans left on the bench
Unofficial experiments
A lethal set of ingredients

It's all been done now, that's what they said
But that was then, they're long since dead
It's all been done now, how wrong they were
Ignorant to what would occur

They're talking to each other, plotting with one another
They're talking to each other (switch it off now)
They're talking to each other, plotting with one another
They're talking to each other (switch it off now)

Join the congregation
This is an open invitation

There's no stopping what's begun
A tiny piece of what's more to come
Now it's just a matter of time
The desolation of human kind

Join the congregation
This is an open invitation
To you and you and you and you
