

The Mushroom And The Swan

SOFT PLAY

He said I got a hole in my soul
Gotta fill it from the inside out
Gotta fill it go go go go
In my eyes and in my mouth
He said I got a nervous disposition
I said I think you might be right
I tried to concentrate on what he was saying
As my eyes darted around the room
Up, down, left, right

He said he said
Let's get to the route cause of the problem
He said he said
You've been saying that a little too often
He said he said
You gotta show yourself some love
He said he said
Nothing 'cause I wouldn't shut the fuck up

He said I got a hole in my soul
You can't fill it from the outside in
I know he's right he's always right
But that don't mean I'll stop trying
He said I can help through this
But there's a price to pay
Cross my palm with silver
And I'll show you the way
Ruining good things in the pursuit of perfection
I need reassurance, I need constant attention

He said he said
Let's get to the route cause of the problem
He said he said
You've been saying that a little too often
He said he said
You gotta show yourself some love
He said he said
Nothing

Come on in
Take a seat
Nice one cheers
How you doing?
How was your week?
Not great actually
And how did that make you feel?
Not good
Let's explore that some more
Alright then
We got a good thing going on
What?
Said the mushroom to the swan
What the fuck are you talking about mate?
I need you and you need me
You're freaking me out
Tell me I'm wrong

He said he said
Let's get to the route cause of the problem
He said he said
You've been saying that a little too often
He said he said
You gotta show yourself some love
He said he said
Nothing 'cause I wouldn't shut the fuck up
