

## Little Boxes

Sohodolls

I wanna feel your heart beating right next to mine  
Baby, like the last time  
Wandering around places we used to go  
I'm still reading your sign

You have been stringing me along  
And now I'm pulling you undone

Every me, every you  
Fell apart, fell apart  
When you broke my heart in little pieces

I love you, I love you  
Now you're gone, now you're gone  
I keep you safe in little boxes

When I close my eyes I remember your smile  
Was I only dreaming?  
Even in the rain you gave me summer skies  
It's more than a feeling

You have been stringing me along  
And now I'm pulling you undone

Every me, every you  
Fell apart, fell apart  
When you broke my heart in little pieces

I love you, I love you  
Now you're gone, now you're gone  
I keep you safe in little boxes

Don't forget our happy times  
'Cause even when it got to hard  
We had a little bit of paradise  
Keep the postcard

Every me, every you  
Fell apart, fell apart  
When you broke my heart in little pieces

I love you, I love you  
Now you're gone, now you're gone  
I keep you safe in little boxes

Wanna keep your eyes  
Wanna keep your heart  
Wanna keep your hands, yeah  
I'm gonna keep your love
