

Mayday

Sohodolls

Dance with me
Tango on broken dreams
Don't let me sleep
I dare not wake

Has the world
Now finally lost its way?
Tell me now that this mess
Is from my duress

Walk with me across debris
Take a promenade
We shot ourselves down
We ran aground
It's sabotage

Mayday, mayday
Do you copy me?
I'm feeling incomplete
In the world you made for me

Mayday, mayday
Can you hear me now?
'Cause I'm counting down
And baby we can't stick around
There's no more time for you and I
This is goodbye

Lie with me
On parachute silk, so fine
My valentine
Sweet cyanide

Final request
Fuck the S.O.S
Spare the radiowaves
We can't be saved

Walk with me across debris
Take a promenade
We shot ourselves down
We ran aground
It's sabotage

Mayday, mayday
Do you copy me?
I'm feeling incomplete
In the world you made for me

Mayday, mayday
Can you hear me now?
'Cause I'm counting down
And baby we can't stick around
There's no more time for you and I
This is goodbye

Walk with me across debris

Take a promenade
We shot ourselves down
We ran aground
It's sabotage

Mayday, mayday
Do you copy me?
I'm feeling incomplete
In the world you made for me

Mayday, mayday
Can you hear me now?
'Cause I'm counting down
And baby we can't stick around

Mayday, mayday
Do you copy me?
I'm feeling incomplete
In the world you made for me

Mayday, mayday
Can you hear me now?
'Cause I'm counting down
And baby we can't stick around
There's no more time for you and I
This is goodbye
