

# My Time

SOiL

Well I see you, so I got you  
Running your mouth like the words you spit make you  
You think your best is better than mine  
You think your best is better than mine  
Well I got you, now I own you  
The look in your eyes, the fear betrays you  
You think your best is better than mine  
Son, nobody's best is better than mine

All my life leading up to this moment  
All my life chasing these dreams  
Well I got you, now I own you  
Nobody's best is better than mine

Fist in the dirt, yeah this is gonna hurt  
This is my time, gonna lay it on the line  
All my life leading up to this moment  
Hit the lights, showtime, it's my time...

Your weakness, my strength  
A strength of name and a strength of number  
You think your best is better than mine  
You think your best is better than mine  
When I'm under, I'll roll you over  
When I'm over you know I'll smash you under  
You think your best is better than mine  
Son, nobody's best is better than mine

All my life leading up to this moment  
All my life chasing these dreams  
Well I got you, now I own you  
Nobody's best is better than mine

Fist in the dirt, yeah this is gonna hurt  
This is my time, gonna lay it on the line  
All my life leading up to this moment  
Hit the lights, showtime, it's my time...

It's my time, it's my time

At my worst I'm better than you  
Nobody's best is better than mine

At my worst I'm better than you  
At my worst I'm better than you  
At my worst I'm better than you  
Nobody's best is better than mine

Fist in the dirt, yeah this is gonna hurt  
This is my time, gonna lay it on the line  
All my life leading up to this moment  
Hit the lights, showtime, it's my time...

It's my time, it's my time

Nobody's best is better than mine
