

## Shine On

SOIL

Shine on me  
with more than  
I ever thought I had

Make me see  
the release  
in the words that I've shared

Shine on me  
with more than  
I ever thought I had

Make me see why  
I should not fade away  
let me feel where you stand

We've shared fears of no use  
We've shared fears of some abuse  
let me feel where you stand

I feel what you feel  
and you know what I know  
the only way to make it right  
is to keep it real

This will not fade away  
we've lived every word we've strained  
together hearts in hand

you take (??) me from being me  
well, thank you for allowing me  
to be just who I am

I feel what you feel  
and you know what I know  
the only way to make it right  
is to make it real

I feel what you feel  
and you know what I know  
the only way to keep it right  
is to keep it real

we will not go away  
we will not fade away?? ... who I am

we will not go away  
we will not fade away?? ... who I am

Shine on me  
with more than  
I ever thought I had

Make me see  
the release  
in the words that I've shared

I feel what you feel  
and you know what I know  
the only way to make it right  
is to make it real

I feel what you feel  
and you know what I know  
the only way to keep it right  
is to keep it real

we will not go away  
we will not fade away?? ... who I am

we will not go away  
we will not fade away?? ... who I am
