

Now did you hear the sound  
Ascending from the ground?  
I pray for those who stayed  
Or died along the way  
We trust the trembling air  
To take us anywhere  
Transcending gravity  
And hoping that we'll be set free (set free)

Unbound instantly  
Airbourne aimlessly  
We drift towards  
The darkness of our heavens (drift away)  
Unbound instantly  
Airbourne aimlessly  
We drift apart  
To finally fade away  
I'm whispering your name  
A memory set to flame  
Like all I left behind  
Becoming someone else  
This time (this time)

Unbound instantly  
Airbourne aimlessly  
We drift towards  
The darkness of our heavens (drift away, drift away)  
Unbound instantly  
Airbourne aimlessly  
We drift apart  
To finally fade away

Unbound instantly  
Airbourne aimlessly  
We drift towards  
The darkness of our heavens  
Unbound instantly  
Airbourne aimlessly  
We drift apart  
To finally fade away  
Fade away
