

# The Nurturing Glance

Soilwork

Luminous deity  
Perilous djinn  
Sacrificed unity  
Servants of sin

Ominous spiritus  
Reaper of souls  
Living in all of us  
Seizing control

What if it's too late to suffer?  
What if it's too late to die?

As we rise  
Seeking shelter from our sins  
We'll escape  
From the universe within  
In a time  
When the veil is growing thin  
We'll take flight  
From the universe within

Eschaton aftermath  
Burying trust  
Even this psychopath  
Learns to adjust

What if it's too late to suffer?  
What if it's too late to die?

As we rise  
Seeking shelter from our sins  
We'll escape  
From the universe within  
In a time  
When the veil is growing thin  
We'll take flight  
From the universe within  
As we rise

We're unwanted pariahs  
At the governance doors  
It's the finalization  
Of what's happened before

As we rise  
Seeking shelter from our sins  
We'll escape  
From the universe within  
In a time  
When the veil is growing thin  
We'll take flight  
From the universe within
