

## Easier

Soja

(Ooh) Well-a-well (oh... yeah)  
Mmm ye-e-e-e-eah (alright) eh, yo

It's never been a problem for me  
It's what I've always wanted, it seems  
It's almost predetermined to be  
I'm always in between  
It's like I always knew that I would  
But never really perfectly could  
Was waiting for the right thing to come  
But never really know, yeah

That it's much easier, that it's much easier  
It's much more easier when you don't lie  
I mean it's easier, it's much more easier  
Ooh it's easier when you don't try

It's in the summer breeze, it's in the winter blows  
It's in the innocent, it's in the criminals  
It's in the real roots, it's in the real vibes  
We get it down low, only to take it so high

And it's in the sky above and even in the trees  
It's inside of you and it's inside of me  
It's in a weird way, but I see it in the clouds  
And the only one we get is it here right now, and it's...

Never really wanted to get a job that didn't benefit or supply  
Work if note and bills stack up, covering up my sight  
I don't qualify for your so called "regular life"  
Wish you could see what we see and break out that single-  
filed line

So we blaze it if all of my people who feel underappreciated  
Just live your life how you please even if dem nah rate it  
And don't forsake it, don't even fake it  
SOJA, Anuhea, J Boog, yes we a go make it, make it...

Yeah
