

To Whom It May Concern

Soja

To whom it may concern and for those who are listening
We're fighting hard but it's not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bullshit system
To whom it may concern and for those who are listening
We're fighting hard but it's not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bullshit system

Trying to ride the thin line of divide between the rivers and the high
hways
Pedaling strong moving on so get on or get out of I'n'I way
When we realize that the most high divine is around and inside we
Then we can stand tall we won't fall cause we're all Soldiers of Jah
Army

To whom it may concern and for those who are listening
We're fighting hard but its not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bushwick system
To whom it may concern and for those who are listening
We're fighting hard but its not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bullshit system

Deception from those who sit up on dem thrones just like Trump in his
tower
They say they're friends of me some imply family when they call them
big brother
They tell us we're free but they're spying on me every minute on the
hour
Their satellites fly as their eye in the sky cause they're all fuckin
g cowards

To whom it may concern and for those who are listening
We're fighting hard but it's not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bullshit
To whom it may concern and for those who are listening
We're fighting hard but it's not with our fist and
Recruiting soldiers livicated to this mission
To dissect this bushwick
