

## Here Am I

### Sol Invictus

Here am I, above this world  
A face in flames and a knowing smile  
Dream your dreams and tread your paths  
It all ends the same, alone in the dark

And here am I drunk and bored  
Even I don't want to drink any more  
Here you are drunk and scared  
You have finally realised that life's not fair

Outside they are gathering and their fangs are bared  
For the bigger your fangs, the bigger your share  
What deity made us, was it a good idea?  
In theory maybe, in practice, oh dear

And here am I drunk and bored  
Even I don't want to drink any more  
Here you are drunk and scared  
You have finally realised that life's not fair

Here am I, above this world  
A face in flames and a knowing smile  
Dream your dreams and tread your paths  
It all ends the same, alone in the dark

And here am I drunk and bored  
Even I don't want to drink any more  
Here you are drunk and scared  
You have finally realised that life's not fair
