

Don't Even Party

Sol

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

I don't even party and I don't even miss it
Sucker free diet like I'm training for olympics
I ain't even trippin' of the women... Listen
I don't need your digits
If we kick it then we kick it
I don't even think I'm different
I just fiend for living life with a little bit of spice in it
If you with it that's an invitation
Been on my never stay-in
Never go out
In limbo, live a life in motion
Water's favorite beverage
Music is my profession
Fucking's my hobby
I might love you I just won't admit
Take you to a bed no breakfast
Cursed by my work ethic, uh
I'm in my 20s
I been breaking hearts for decades
... And I ain't proud of it
... but I write my wrongs until the crowd sing it
I don't even get lit I just make songs to kick it
Just a clown with frown trying to make you smile with it

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

If I was a drunk then I would be a sober one
If I was cop, nah, probably never hold a gun
I'm running with my youth but think I need a older one
Like if I had a down bitch I prolly just get over her
She think I just just be caught up in my sounds

With a condom or a hangover each time I come around
We should link, love you not know what chu getting into
It could happen, I'm just rapping I'm just trying to keep shit simple
I am not trying to drink, I just came with my spouse, man
I don't want your joint. I don't know where your mouth been
I'm weird on my own. I'm legal, not grown
He don't feed none his ego still these hoes is sprung, yeah
Life's the biggest party that I ever been too
We got some for every type of vibe you into
Riding through the town trying to move around
I don't even indulge I just look around

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

I don't even party
I just smoke all day
And kick it with my shawty
I ain't got no worries
Why you in a hurry?
Don't call me I'm recording

And I don't even drink
I don't even drink (sike)
I was drinking last night, like
I don't even drive
I just get high
Yeah I just get high
