

Dope

Sol

I know you hit me on my cell phone and all you got was voice mail
I'm out here starting fires and burning joints down
Getting money but those are just the details
Making music is the reason that my feet swell
Walking miles, back & forth, up & down
East & west, north & south, all around
Crossing borders, moving at the speed of sound
And you can tell by the beats that we from out of town
You know I kill it like I'm leaving tonight
90 minutes later and no leaving in sight
Some of these teachers ain't teaching it right
So I choose to break beats & drink wine
We kings, this isn't life this is a dream, dope
Feeling like Tyson in the ring, dope
Generation cold as a ice rink, cocaine white & all black everything
This is dope, dope, dope
This is dope, I said its dope, this shit is dope

I was just a young boy, you were just a young girl
Now we both grown, and we're taking over the world
This shit is dope, yeah, I said it dope, yeah
This shit is dope, yeah, I said it dope, yeah
This shit is dope, yeah, I said it dope, yeah
This shit is dope, yeah, I said it dope, yeah

We make it pure, uncut
Mix it, back it up, give to people they fix and then we switch it up
Forever high you can't deny such a buzz
And this can never die like the war on drugs
The dope is on the table with my records and stars
Generation more raw then ever before
My Zillas hold me down, ready for war
Yeah the haters say I'm soft but the ladies know I'm hard
Flow cocaine, coke through ya veins
Just imagine what will happen when I come back to take my ring
My music get you blaze like Mary get you Jane
Or like Molly get you, okay that's a different thing
Switch lanes, quite living life ball like its a game, dope
I'm feeling like Jordan with six rings, dope
Generation cold as a ice rink, cocaine white and all black everything
This is dope, dope, dope
This shit is dope, dope, dope, yeah

I said that
I was just a young boy, you were just a young girl
Now we both grown, and we're taking over the world
(This shit is dope, yeah, I said it dope, yeah)
(This shit is dope, yeah, I said it dope, yeah)
I was just a young boy, you were just a young girl
Now we're both grown, and we're taking over the world

I said its
I said its
I said its
I said its

I said its

Dope, dope, dope, dope
Dope, dope, dope, dope
Dope, dope, dope, dope
Dope, dope, dope, dope
I said its

If they say they want more, we giving it to them raw
Money in my pockets, so you know I get it all day
Wake up, and wake up in Bombay
Bought a ticket round the world & took the long way

Dope dope dope dope, dope. Dope dope dope dope
Dope dope dope dope, dope. Dope dope dope dope
Dope dope dope dope, dope. Dope dope dope dope
