

Grapevine

Sol

I just gotta take my time
Or I'ma go outta my mind
All the best things take time
Like grape vine, great wine

I'ma just take my time
All the best things take time
I'ma just take my time
Grape vine, great wine

Oh
I'ma just take my time

Manifesting
Man is destined
To be something more than sitting at a desk
You can bet I got questions
Looking these answers
Trying to fight the fight
Like my momma against cancer
Fuck Cancer

She said take your time
Baby you gon' be a star
Seen it in your cards
It's just who you are

The best things take a minute
And I ain't talkin' seconds
If you pay attention
You might learn some lessons

Go find your best friend
And take some time to decide
That's your best friend
Has your love been tested?

Through the eye of the storm
I write me a song
Only goddesses sing
So I ain't gotta perform
If you wanna harmonize
I can try to sing along
But life just sounds better
When you on the microphone
Time

I just gotta take my time
Or I'ma go outta my mind
All the best things take time
Like grape vine, great wine

I'ma just take my time
All the best things take time
I'ma just take my time
Grape vine, great wine

Oh

I'ma just take my time

Oh

I'ma just take my time
