

Jump In

Sol

One time (yeah)
She keep me coming, uh, she keep me coming
Back to these beats, ooh, she give me loving
We can break the rules, let's get into something
If the water's deep, use your feet and jump in
Jump in
Jump in
If you ain't afraid, then you ain't chasing nothing
Life is sink or swim, so jump in

My wife is lovely thank God, I knew she loved me
Music is my baby, oh she drive me crazy
I need her on the daily like biscuits need gravy
But sometimes I need to unplug and jump on a plane to Haiti
The rhythm play me so I play it back
She takes me all over the map, soaking in where I'm at
Coconuts and rum, soaking up the sun
Coasting in the jeep follow the ocean to my love
Me and my too-high crew, pass long nights and hard days
When you ain't chasing fame it's a different ball game
I just want to play shows and make music
Travel the globe and write the soundtrack to it

I think I just woke up from a dream
I think I just woke up from a dream
I think I just woke up from a dream
It was you and me when nobody else believed in me

I took you all around the world
I took you all around the world with me
Girl I took you all around the world
Married to my dreams making music 'till they burry me

Rolling in the sheets, she told me to go to sleep
I said hold up I'm rolling one up but floating out to sea
She said, "Oh no, oh no, you don't just leave me like that"
I said, "you're right cause everywhere I go my city's on my back"
Write some raps, get some plaques, then it's back to the travel life
I was gone for a year, and now I'mma leave for another five
I'll never retire, I simply live on the road
Cause when you love what you do, do, you never grow old
She gave me hey, and then a ho
Now we spread our babies everywhere we go
Thinking bigger picture brought me round the world with music
My peers may be clueless but these rappers can be stupid stupid stupid
I just might go make a mil' and give 100k away
I'm the type to feed the children then get ignant on the stage
Women love me and I love them back, but not as much as rap
Married to the music, no wonder I'm fucking back

Zilla, uh

I think I just woke up from a dream
I think I just woke up from a dream
I think I just woke up from a dream
It was you and me when nobody else believed in me

I took you all around the world
I took you all around the world with me
Girl I took you all around the world

Jump in
Jump in
Jump in
If you ain't afraid, then you ain't chasing nothing
Life is sink or swim, so jump in
