

# Risk It All

Sol

I'll fly all my flyer miles  
Just to roll your smoke and then elope and ghost our friends  
Runnin' all my data out  
Just to stay up late and text memes and naked pics  
I just need to see you now  
Come and spend the night again, waste our time in bed  
I, would risk it all on you  
Cause you I can't lose

Since the day you passed your info  
I knew you could match my tempo  
Making you laugh and laying you back  
Baby that's my M.O  
I knew we could last  
When you threw me your glass  
And tell me this party is weak  
I'm ready to leave whenever you need  
My chic is a nympho  
It's not even sinful  
When the water is holy the bottle is been full  
The body is bread but shawty is wine  
Got in my head when you started to grind  
It's not even nine  
We takin' it slow and it's valuable time  
I got me a flight tonight but you so fly  
I might just, I  
I might just, I

I'll fly all my flyer miles  
Just to roll your smoke and then elope and ghost our friends  
Runnin' all my data out  
Just to stay up late and text memes and naked pics  
I just need to see you now  
Come and spend the night again, waste our time in bed  
I, would risk it all on you  
Cause you I can't lose

I, with you  
I, can't lose  
I, with you  
I, can't lose

You're the realest around  
For like a bajillion miles  
There's no one I found in my town that's seeing you pound for pound  
So I give you the crown  
I might just fly your fly-ass back right now  
Just to see you smile  
Just to have you leave and leave me down  
It's worth opening doors and closing eyes  
So wet I get baptized  
My prison was in the mind 'til I trusted in open thighs  
We blowin' like forty-fives  
And hoping our souls are tied  
Cause while we was getting high  
My mileage been getting high

I'll fly all my flyer miles  
Just to roll your smoke and then elope and ghost our friends  
Runnin' all my data out  
Just to stay up late and text memes and naked pics  
I just need to see you now  
Come and spend the night again, waste our time in bed  
I, would risk it all on you  
Cause you I can't lose
