

# Stuck On You

Sol

When I come to your city  
I hope you got that sticky for me  
Call me when your ready  
We can kick it  
I can get you goin'  
Get you goin'  
Get your liquids flowin'  
Make your Ex's jealous  
Talkin' shit and tension flowin'  
You just smoke a lot  
Go to shows a lot  
Post up at the parkin' lot  
Yeah you know you hot  
You been fly since Junior High  
You and I  
Doin' what we choose in life  
Pull me like the moon and tide  
Do you wanna ride like do or die  
In the back seat of your Caddy  
In the classic, get nasty  
Leave hand prints on your ass cheek  
Your girlfriends gon' harass me  
I just want some company  
It's lonely up in this industry  
Chasin' dreams while snitchin' thieves  
But I just want to play for keeps

Pretty young thang down the road got me feelin' some way  
You make me want to stay  
I been waitin' for days  
Ayyy  
You got me stuck on you  
Pretty young thang down the road got me feelin' some way  
You make me want to stay  
I been waitin' for days  
Ayyy  
You got me stuck on you

You got me hooked, I'm stuck on you  
Can't even seem to get enough for you  
I might just tour your city  
'Cause every night feels sold out  
Clothes off when I show up  
We don't need a reason to go out  
Sound check, I'm late for that  
Meet and greet, you can wait for that  
Plus three, you can have that  
My [?] will look after bags  
So many girls are down but you the one I want to learn about  
You the one that always stuck around  
Instead of hitch to town, drove thirty hours  
Like God damn (God damn)  
Everybody got boo'd up  
I'm still tryna get to you love  
Found me in pieces  
I found my peace with, you  
You got me feenin' so much

Stop by, not leavin'

Pretty young thing down the road got me feelin' some way  
You make me want to stay  
I been waitin' for days  
Ayyy  
You got me stuck on you  
Pretty young thing down the road got me feelin' some way  
You make me want to stay  
I been waitin' for days  
Ayyy  
You got me stuck on you
