

# These Songs

Sol

I was in the whip, ridin' with my chick  
She was slidin' on my tip while I'm writin' this song  
I was on the bus tryna get a buck  
Man, I don't give a fuck while I'm writin' this song  
I was in the studio, comin' with it from the dome  
Like I'm Weezy from I Know, freestylin' my songs  
I'm lyin', I'm alone, in the cabin with no phone  
Pullin' hair from my skull, tryna write you these songs  
I was meditatatin' on a island with my Haitians  
Different kinda vacation while I writin' this song  
I was in the town, feelin' all kinds of down  
I's tryna figure out how to liven these songs  
Tryna right all these wrongs  
Tryna write on these drums, hope you flower, we jump  
'Cause we'll prolly peak somethin'  
Like an LSD tongue, write-writin' these songs

Write-writin' these songs  
Write-writin' these songs  
Write-writin' these songs  
Write-writin' these songs  
Write-writin' these songs

I've been all around for you  
I think I found what I'm searchin' for  
Finally found what I'm searchin' for  
I've been lost up in this world  
But I never really felt alone  
No, I never really felt alone

Yeah, I can tell you what I think you wanna hear  
Or I could give you what's goin' on in here  
Either way, I write a hit, make the choice when you click  
Do you want the real or fake shit?  
'Cause some of your favorites is stuck in the matrix  
They thinkin' they Neo 'cause they runnin' with agents  
Up on the stage, ain't got nothin' to say  
Cuppin' nuts in the mic, man, they must be compensatin'  
For somethin'  
While change ain't nothin'  
I'm not hatin', I just love when  
You stay one hundred

I don't wanna waste my chance to say some  
Don't write the same song  
Even when times, they stay hard  
I'ma write life the way it was

I've been all around for you  
I think I found what I'm searchin' for  
Finally found what I'm searchin' for  
I've been lost up in this world  
But I never really felt alone  
No, I never really felt alone

I've been all around for you  
Think I found what I'm searchin' for

Finally found what I'm searchin' for  
I've been lost up in this world  
But I never really felt alone  
No, I never really felt alone
