Because she gave nice head and had the tightest lips but

In-between their legs and they got a brother stressing

Please God give me one reason  
Why you ain't leave me in the garden of Eden  
She was cheating and she deceiving

But these things never seem to work out  
That's why she's laying naked in my bed curbed out

Going on with the world  
With the world today  
I'm like wow  
What the fuck is going on  
Going on with the world  
With the world today

And hit the clinic I prescribed off some pills real quick  
Now she back at it sharper than a drill tip
