

Slow Down

Soldiers of Jah Army

You can search the world for signs of life and realize the truth is in your
Heart you can try to become who you want and never get away from who you
Are you can trust another like no other watch them fall and then you fall
Apart it there's you apart always see myself alone but in my darkest hours
There you are

Chorus:

So I can say oh now oh now oh now now now now now (2x)
Oh now you gotta slow down
Oh now all I have is now
Oh now oh now now now now

I've been all around the world to find it travel east and west like
Everyday I've been high and low since I have lost it how do I get back to
Yesterday it feels like a game I have seen the look in peoples eyes
Sometimes and all I do is chase then away cause I have been all around the
World just to find it every time I do I don't let it stay I chase it away
