Breaking The Silence

Solence

Said she bled through the skin
Empty soul caving in
She could feel the wolves within her

Dried her eyes and visualized
That she had been living lies
We are loosing what we are

Breaking the silence we've created
(Breaking the silence)
Burning the walls that kept you sinking

You're breaking me DOWN
Breath in breath out and realize that
We've been lost without a clue

Breaking the silence we've created
(Breaking the silence)
Burning the walls that kept you sinking

I won't listen no
I won't listen to you
What you got say to me
Shut the fuck up!

Breaking the silence we've created
(That we created)
Burning the walls that kept you sinking

Breaking the silence we've created
(That we created)
Burning the walls that kept you sinking
