Brothers

Solence

We were sixteen years old
Had the world within our reach
We were brave were stone-cold
A bit naive

I broke your heart You broke mine too
But bleeding scars
Made us bulletproof

We were great
Now we're tough
And we will never, ever give up

So break me down
Tear me up
We'll always be brothers, brothers, brothers

Throw my heart
To the ground
And we'll always be brothers, brothers, brothers

I do me
You do you
We'll always be brothers, brothers, brothers

And 'til the end
We won't give in
Cause we'll always be brothers, brothers, brothers

We worked hard, we were soldiers
And we simply couldn't stop
When a part felt too hopeless
We kept pushing on, pushing on brother

Give it all, give it all you've got
Give it all, give it all you've got

Every little last bit, brother just push come on

Give it all, give it all you've got
Give it all, give it all you've got

And never, ever give up

So break me down
Tear me up
We'll always be brothers, brothers, brothers

Throw my heart
To the ground
And we'll always be brothers, brothers, brothers

I do me
You do you
We'll always be brothers, brothers, brothers

And 'til the end

We won't give in
Cause we'll always be brothers, brothers, brothers

So break me down
Tear me up
We'll always be brothers, brothers, brothers

Throw my heart
To the ground
And we'll always be brothers, brothers, brothers

I do me
You do you
We'll always be brothers, brothers, brothers

And 'til the end
We won't give in
Cause we'll always be brothers, brothers, brothers
