

# Claustrophobia

Solence

I feel the walls start caving in  
Find myself inside a dream  
Running through an endless crowd  
Searching for my way back out

I'm stuck in

Claustrophobia  
Locked inside my head  
I keep hoping I'll  
Get out from this place  
There's no end in sight  
Sinking deeper down  
Into claustrophobia

The air around is getting cold  
Traveling into the unknown  
Claustrophobia's endless skies  
Swallows me into its night

And I keep overthinking  
I keep losing myself  
I keep bang-bang-banging on the door  
But it's locked from the outside  
And I can't find the key  
Need to find our place to be  
In this

Claustrophobia  
Locked inside my head  
I keep hoping I'll  
Get out from this place  
There's no end in sight  
Sinking deeper down  
Into claustrophobia

(Let's turn it up, come on!)

Hold on  
I tell myself just to hold on  
I can't show that I'm weak  
But inside I am scared I am hollow  
Hold on  
I tell myself just to go on  
There's so much left in me  
So no matter how tough I must go on  
(Fuck it)

Just give me all you fucking got!

Claustrophobia  
Locked inside my head  
I keep hoping I'll  
Get out from this place  
There's no end in sight  
Sinking deeper down  
Into claustrophobia

(Claustrophobia)

Claustrophobia  
Locked inside my head  
I keep hoping I'll  
Get out from this place  
There's no end in sight  
Sinking deeper down  
Into claustrophobia  
I hope I'll make it  
I hope I'll make it out!
